Slavin
At this stage only Igor will call. I've told him you're working with a bright younger lady Prof. And you can bring her onto any telco or meeting.
I think you can probably at certain stage invite him to visit you in IL. To show him you're working " on mice and men" not just mice.

aspects of it. Dr. Goryanin is an adviser and consultant to some of the leading private companies which are active in this arena of modern applications of science for medical processes and products.
I've already sent to Dr. Goryanin an hour ago the material you've prepared for Prof. Weinberg.
I leave it to you to continue from here. May I suggest Igor that you'll email to Shimon your tel # and you start talk directly to each other.
When you exchange emails please cc myself and Andy when it is relevant.
